Education

Bachelor's Degree in Communication Engineering   **Oct 2017 - Aug 2023**

HIAST(Higher Institute for Applied Sciences and Technology)

During my studies, i gained in-depth knowledge of communication Systems, including antenna technologies, signal transmission, and receivers.
I developed expertise in programming language such as, c++, c#, Python
worked extensively with tools like MATLAB, HFSS and Packet Tracer
my graduation project focused on "Drone Detection and Classification Using Radio Signature and Machine Learning Techniques"

Course Front End   **Dec 2023 - Jul 2024**

Engineering Center For Science, Damascus, AL Halbouni

worked on front-end development of websites using languages like HTML, CSS, JavaScript and React

Employment

Communication Enginner   **Oct 2023 - Nov 2024**

Damascus, Barza

Designed and implemented communication systems for transmission and receivers.
Developed multi-transmitter and single-receiver networks.
Worked on antenna systems and RC systems.
Enhanced technical troubleshooting and system integration skills.
